

Joint CQSE and CASTS Seminar

Weekly Seminar
Dec. 4, 2015 (Friday)

TIME Dec. 4, 2015, 14:30 ~ 15:30
TITLE Bulk Entanglement Spectrum and its Implication
SPEAKER Prof. Feng-Li Lin
Department of Physics, National Taiwan Normal University
PLACE Rm716, CCMS & New Physics Building, NTU

Abstract

In this talk I will review the idea of bulk entanglement spectrum and its evaluation for TI/TSC systems, and discuss its implication to the relation between entanglement and topological order based on some explicit evaluations such as IQHE.
