

Joint CQSE and CASTS Seminar

Weekly Seminar
Oct. 21, 2016 (Friday)

TIME Oct. 21, 2016, 14:30 ~ 15:30
TITLE Data Analysis of Complex Systems in the New Era: A
physicist's point of view
SPEAKER Dr. Sai-Ping Li
Institute of Physics, Academia Sinica
PLACE Rm716, CCMS & New Physics Building, NTU

Abstract

In the new Big Data era, there is now an overflow of data in many areas, from financial markets to experimental high energy physics. In this pedagogic talk, I'll first give a brief introduction to complex systems and big data era. I'll then give a few examples from my research works in recent years by using big data. I'll conclude by giving some of my thoughts on future directions along this line.
