

Joint CQSE and CASTS Seminar

Weekly Seminar
Nov. 23, 2012 (Friday)

TIME Nov. 23, 14:30 ~ 15:30
TITLE Shaping single photons and entangled photons
SPEAKER Prof. Chih-Sung Chuu
Department of Physics, National Tsing-Hua University
PLACE Rm716, CCMS & New Physics Building, NTU

Abstract

The ability to control the wavepackets of photons may find applications in quantum information science. In this talk, I will describe how we generate temporally long single photons and entangled photons, and how we manipulate their waveforms and phases.
