

Joint CQSE and CASTS Seminar

Weekly Seminar
May 24, 2013 (Friday)

TIME May 24, 14:30 ~ 15:30
TITLE Application of Computer Simulation in the Investigation of Protein Drugs and Small Agents
SPEAKER Dr. Yeng-Tseng Wang
National Center for High Performance Computing
PLACE Rm716, CCMS & New Physics Building, NTU

Abstract

This presentations, studies two specific topics related to the research of computer-aided drug design(CADD) by employing the molecular simulations approach, that of protein drugs and that of small agents. These results can help drug designers to improve their products for treating special disease.
