

Seminars on Theoretical Physics

Professor Jean Zinn-Justin

CEA, IRFU and Institut de
Physique Théorique,
Centre de Saclay, France

Member of the French Academy
of Sciences

(I) The Mass of Higgs Boson

Date : April 11, 2012, 2:20 PM ~ 3:20 PM

Place : Room 833, New Physics Building, National Taiwan University

Abstract: The theoretical issue of the Higgs boson mass is revisited in the light of recent LHC results, with a historical perspective.

(II) The Fate of the Vacuum

Date : April 12, 2012, 2:20 PM ~ 3:20 PM

Place : Room 833, New Physics Building, National Taiwan University

Abstract: A history of the evolution of the notion of vacuum from the Galileo's free fall to dark energy
