

Joint CQSE and CASTS Seminar

Weekly Seminar
Sep. 23, 2011 (Friday)

TIME Sep. 23, 14:30 ~ 15:30
TITLE New Gauge Symmetries from String Theory
SPEAKER Dr. Pei-Ming Ho
Department of Physics, NTU
PLACE Rm716, CCMS & New Physics Building, NTU

Abstract

A priori, the notion of gauge symmetry does not have to be restricted to that of Maxwell theory or Yang-Mills theory. In this talk, we will review the algebraic structures of several different kinds of gauge symmetries.
